### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

***Allowable Subject Matter***

The following is an examiner's statement of reasons for allowance: the prior arts of record fail to teach an analog-to-digital conversion system, comprising: a first A/D converter providing a first digital output according to a system analog input and according to a noise shaped first analog feedback signal; and a noise shaping system with respect to quantization noise associated with said converter of an order N having less than N integrator amplifiers, the noise shaping system being coupled to the first A/D converter and providing the first analog feedback signal according to the first digital output, the first analog feedback signal being noise shaped by the noise shaping system to an order N with respect to a quantization error associated with the first A/D converter.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
